

## Backend Developer for Special Projects

*At EASI'R, we are on a mission to revolutionize the way automotive companies work with customer relations. We live and breathe for creating great software and deliver great value to our customers and their businesses. We push the limits of possibilities and explore new grounds of the tech-landscape. We do this to deliver software that our customers can't live without, while bringing a new breed of relations' software to the automotive industry. We are now looking for new developers to on-board this endeavour.*

### The job

Due to the company's rapid growth and success, we have created a "sub-team" inside the existing development department to handle special projects.

The focus will be on bridging the gap between our customers' systems and ours, ensuring a smooth experience for our new and existing customers.

You will join a team of highly skilled colleagues that value a good cup of professionalism, a handful of passionate developer skills, combined with a bag of humour, preferably the black one.

### The basics

The basic competencies for the position is hands on experience with:

- Modern PHP
- Laravel/Symfony
- Relational databases

In addition to this, we expect that you know what sprint planning, daily stand-ups, sprint board, burn down charts and retrospectives are.

## The nice to haves

The following experience will be beneficial:

- Docker
- Microservices
- Elasticsearch
- Redis
- RabbitMQ

Experience from a CRM solution provider would count as a great advantage.

## Personal qualities

Passionate, result driven and eagerness to learn mean more to us than a framed diploma hanging on a wall.

What we find relevant is what you have been up to the past +3 years, so tell us more about that in the application including what drives you to continuously be on the edge of your comfort zone.

### **So if:**

- You have a proactive mind-set and perform independently as well as in teams.
- You want to get to know new technologies and are not afraid to throw yourself head first into new adventures.
- You are comfortable communicating in English as this is our main company language. Additional language skills, especially German, would be an advantage, but not a requirement.

... We'd love to hear from you.

## Life at EASI'R

Located in Aarhus, Denmark, we believe that people who work hard and give their best to create great things should really enjoy coming to work. Therefore, we promote a laid back attitude in the office. Popular meeting point: Our well-equipped games room!

## Great! So what next?

Please send your application to [jobs@easir.com](mailto:jobs@easir.com). If you have any questions, you are welcome to call Miriam Davidsen on: **+45 22 17 67 71**

## About EASI'R

EASI'R is the leading cloud relations platform for the automotive industry. We help the automotive industry to build and grow profitable customer relations. At EASI'R, we work with some of the world's most influential automotive brands. Our customers are manufacturers, national sales companies, large dealer groups and vendors to the industry. But more than that, they're forward-thinkers who get that in our ever-evolving business landscape, success isn't about closing the deal today. It's about building long lasting relationships that keep customers around for tomorrow.
