

## QA Engineer

*EASI'R is the leading cloud-based customer relations platform for the automotive industry. We work with some of the most influential automotive brands and help more than 2,600 car dealerships across Europe, to grow profitable and long lasting relationships. We are looking for QA Engineers in Aarhus to help us raise the bar within automotive lead management. You will join a digital-born company with the spirit and passion of a startup, and the investment eagerness of a global tech-firm.*

### The position

Due to the continued expansion of our team and platform, we have a need for a QA Engineer to help us ensure a high quality of our deliveries by developing and executing automated test scripts.

You will work as part of the development team and act as a key contact point between our department and the rest of the business. You will have close relationships with the support team and other stakeholders throughout the business.

You will participate in bringing QA upstream within our value chain, including product design validation and static tests of requirements towards customer needs. Most importantly, you will be responsible for enabling fast and reliable automated testing on the work stream products that you are helping to create.

In the longer term, we wish to create more sources of feedback from our environments in order to achieve proactive QA and facilitate hypothesis-driven development.

### The basic competencies

- Hands-on experience with automated testing tools
- Hands-on experience writing and executing tests
- Ability to logically evaluate requirements & acceptance criteria
- Comfortable working in a cross-functional team
- Ability to assume multiple users' mindsets

- Ability to provide constructive feedback clearly and pragmatically
- A solid understanding of Git and version control

### Technical Expertise

- Technical/Automated testing
- Experience managing and handling releases
- Principles of Continuous Delivery
- Working with pipelines (Jenkins)

### What we offer

- An informal entrepreneurial start-up working environment
- An opportunity to influence and shape a newly established QA department
- A setting where you are a co-designer of our work setup, processes and tools
- Health care and pension schemes
- And of course lunch, soft drinks, fruit & coffee, and whatever else may get you rocking

Send us your application, CV and perhaps a portfolio link right away to [jobs@easir.com](mailto:jobs@easir.com), or contact us for more information! If you have any questions on the application process, please get in touch with our HR manager Miriam Davidsen at +45 22 17 67 71. You are also welcome to contact our Head of Development Thorbjørn Munck-Alstrup, +45 24 25 31 92, [tm@easir.com](mailto:tm@easir.com)

### About EASI'R

At EASI'R, we are on a mission to revolutionize the way automotive companies work with customer relations. We work with some of the world's most influential automotive brands, manufacturers, national sales companies, large dealer groups and vendors to the industry. Our customers are forward-thinkers who understand that in our ever-evolving business landscape, success isn't about closing the deal today. It's about building long lasting relationships that keep customers around for tomorrow. More at [www.easir.com](http://www.easir.com)
